

Grand Rapids, Wisconsin, Wednesday, Feb. 26th, 1908.

DRUMB &amp; SUTOR, Publishers.

## Money to Loan.

### Amount

We have a large amount to loan. No matter how small or how large the sum, you may call and see us.

### Time

We try to make the length of time the loan is to run, suit the borrower.

### Payments

Payments may be made as often as the borrower wishes.

### Rate

The rate of interest charged is low and depends on the size of loan.

### Security

We accept all kinds of security which any careful business man would consider safe.

## FIRST NATIONAL BANK

GRAND RAPIDS, WISCONSIN.

We are here to Accommodate You.

### Handling Maxwell Case

F. L. Holliday & Son have taken the agency for the Maxwell automobiles. Last week they received one of the new models, which is a neat little car of fourteen horsepower and carrying capacity of two people. Parties who contemplate buying an auto the coming season should look over the Maxwell and see its good points before they make up their mind.

### Some Noted Guests.

There was an assemblage of noted personages at the John Farrish home on Friday evening, the list of visitors including George and Martha Washington and all the relatives, besides a number of their friends. The evening was spent in a very pleasant manner, games being played and dancing indulged in until a late hour.

### George Washington Party.

A party of young ladies consisting of Misses Jennie Kunz, Irene and Zada Brown, Mollie and Lydia Stahl and Fern Chaudos gave a George Washington party at the Kunz home on Saturday evening. Hearts was played during the evening and refreshments were served and a very pleasant time was had.

### Had a Fish Supper.

The Elks indulged in a fish supper on Tuesday evening. F. G. Gilkey furnishing the fish. He received a fifteen pound pickerel from a friend, which when properly cooked made a very acceptable feed.

### ADDITIONAL LOCAL.

A man never knows in this world what he is going to encounter the next day, or the next minute, for that matter. Today you may be just an ordinary cub piddling along on a week and a half, and tomorrow you may be president of the United States, or postmaster, or some other equally important person.

We were forcibly reminded of this one day last week. We, in making our usual rounds of the city in our usual way, wrenched an existence from a cold and bitter world, changed to a stormy one.

The judge wore a smile as large as a porcupine's quill and twice as fetching and greeted us with a hearty handshake and told us we were just in time. He immediately conducted us into the inner sanctum, the place where a man generally comes out of with one leg about three inches longer than the other should be, and we began to get suspicious.

Before we had time to make any objections, however, we noticed lined desks in silver-mounted and gold-mounted work and the making of slides for her lecture "Antique and Modern Jewelry." She has been a student in this art for many years and will bring to us her knowledge of gems, their values and sentiments, their symbolic meaning and their uses and abuses in decorating jewelry.

The afternoon program is open only to the members, their house guests and prospective members.

One mission of the Federation is to bring to our city such speakers as will broaden our vision, arouse our interest and enable us to gain pleasure in objects and projects to which we have been previously indifferent. This has a reflex action and tends to result in a beautified city.

The officers and Art committee are confident they have arranged a treat for the membership and also the public who are invited to the evening lecture.

Miss Alta Sherman departed last week for Milwaukee where she will spend three weeks studying the spritz millinery styles after which she will go to Washburn where she has accepted a position as head trimmer in a millinery store.

Miss Rose Kunz spent a few days at Mosinee, Wisconsin and Merrill. She was accompanied home by Mrs. L. J. Krellow of Shanagolden who spent a few days in the city visiting friends and relatives.

H. Mortensen of the firm of Iwan & Mortensen, real estate dealers at Marshfield, was in the city today on business. The Tribune acknowledges a pleasant call.

H. C. McCann is home for a few days from Escanaba, Mich. can, where as state manager for the Federal Life, he has a number of agents at work.

A. L. Putnam spent Sunday at Weyauwega, where he supplied the pulpit of the Baptist church.

### A Little Journey to the Art World.

Mrs. Herman J. Hall of Chicago who has been engaged to lecture on "Antique and Modern Jewelry" March 6 at 7:45 p. m. in the High school auditorium has consented to give an informal talk to the ladies of the Federation at the afternoon meeting which will be held at the home of Mrs. Ellis beginning at 2:30.

Mrs. Hall has studied art in its varied branches for many years. She was the honored president of the Outdoor Art and Park association, preceding the lamented Mrs. Chas. Millspaugh, to well and pleasantly remembered here. She is the author of that interesting book of travel and entitled "Two Women Abroad" and is a favorite member and lecturer of the Chicago Women's club and her Art talks are recommended by the General Federation Art committee.

Mrs. Hall has visited Europe six times and devoted much time to the study of the art treasures. Last season the special object of her trip was the continuance of her study of work in silver-mounted and gold-mounted work and the making of slides for her lecture "Antique and Modern Jewelry." She has been a student in this art for many years and will bring to us her knowledge of gems, their values and sentiments, their symbolic meaning and their uses and abuses in decorating jewelry.

She will tell how to judge real stones and how to detect false ones, what to wear and have the piece of jewelry appropriate and becoming and the latest ideas in fashions as compared with the past.

The officers and Art committee are confident they have arranged a treat for the membership and also the public who are invited to the evening lecture.

### Band Concert Program.

The next concert by the Grand Rapids band occurs tomorrow evening, Feb. 27th. Following is the program:

PART I.  
March.....Somper Fiddle  
John Phillip Sousa  
Garotte.....A Garden Matinee  
March.....A Garden Matinee  
Selection from Faust.....C. Gounod  
March.....Characteristic—Humoreske  
H. J. Wheeler  
A Day in the Cotswolds—Descriptive  
Smith & Zabin

Darkies on their way to the cotton field; on the Mississippi river, darkies singing at their work; steamboat whistle; darkies dancing with a light as boat approaches; song on the bank "My Old Kentucky Home," darkies singing dancing as boat passes away. Homeward bound, darkies disappear in the distance.

### Want a Change in Time.

A petition addressed to the officers of the Chicago & Northwestern Railway has been circulated among the business men of the city during the past week. This petition asks that the time of the early morning and late evening train be changed back to something like the old schedule on which they were run for a number of years.

The train formerly left here at 5:30 in the morning, and returned at night at about 10 o'clock, but since the change in time it has left at 4:15 and goes in at night at about 10:15. People formerly used to wait, but considerably longer both ways, but since the change in the time the early and late trains are not used unless it is an absolute necessity.

The difference in time comes about because the run from Redgranite to Junction to Redgranite is made every morning and evening, the train coming up on this branch and coming back again before continuing on its way. This makes the trip between this city and Chicago a most tedious one and those who are in the habit of using the road feel that it would be better for everybody concerned if this part of the run were cut out.

For some time past the Consolidated people have been negotiating with the Electric & Water Co. with a view to furnishing the latter with power to light the city. While at the present writing no contract has been signed, it is entirely probable that it will be done in the near future.

The Consolidated made a proposition to furnish the Electric Co. current for one and one-half cents a kilowatt, which is a low rate, but not as low as there is being done in other places where there is water power. To every thinking man it would seem that the power for lighting the city should be furnished by the Consolidated people. They have a surplus of power and they have carried the city load at different times and report that it is hardly noticeable on their machinery. It would seem as if it were better to leave our money here at home, than to ship coal for hundreds of miles and pay it out in this manner.

### Catholic Foresters Jubilate.

Monday night at Eagles' hall fully three hundred and fifty men and women sat down to an elaborate banquet of the Catholic Order of Foresters of this city. It was the occasion of the celebration of the twenty-fifth anniversary of the organization of the Order and the occasion was certainly celebrated in a fitting manner. It is a fact creditable to the local Order that it is the first Court in the state to celebrate this Silver Jubilee, and the state officers took particular pains to commend favorably on the energy and enthusiasm shown by the local members.

Prior to the banquet a class of 20 candidates consisting of J. B. Arpin, Frank Welland, Ed. Pommette, Chas. Karnatz, H. H. Welland, Jas. Schlatte, George Krommunk, J. Leber, A. Schiller, W. D. Kottner, Brockman, J. W. Schuler, S. Klappa, J. Klappa, A. Maurer and Louis Nequette were given the oaths of initiation by the local Order.

### Will Meet at Marshfield.

The Wood County Odd Fellows Association will meet at Marshfield this year, the date that has been set being Monday, April 27th. The date of the anniversary is April 26th, which is Sunday. The Odd Fellows of this city are figuring on turning out in full force and it is possible that they may take the band with them to Marshfield.

### Gauke-Pagel.

Henry Gauke and Miss Anna Pagel are to be married today at the Lutheran church in the town of Sigel, Rev. Gschwind to perform the ceremony.

### A Change in Postmasters.

Congressman Marco has recommended Robert A. McDonald for this city for the position of postmaster. In this city to succeed A. J. Pantaine. It cannot be stated at the present time when Mr. McDonald will receive his appointment, but it will probably be before long.

### Opera House next Sunday Night.

The last in the series of Popular Evening services for this winter will be held on Sunday, March 1st. There will be music as usual and an address by Rev. Fred Staff. Admission free and a cordial invitation extended to all.

### Mr. and Mrs. A. Schuler returned.

on Tuesday from a week's visit with relatives and friends in Chicago, Milwaukee and Pewaukee.

### To Some Subscribers.

The extension of the time which the postal department allowed publishers to get their lists in shape to comply with the new ruling is only a short time. Then we shall be obliged to cut from our mailing list all who are over one year in arrears. There are only a small number who have not responded; we trust those who will settle shortly. Several who were some years in arrears and who ignored our statements we have discontinued sending the paper and placed accounts with attorneys. We will thus be clear of the professional dead beat.

Remember this is a ruling of the postal department which the Tribune must live up to as we have published several times.

### ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder.

So does France  
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

### ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.

W. E. Sydow was a pleasant caller at the Tribune office on Thursday. Mr. Sydow is engaged in farming near the Wickham addition and part of his farm is located within city limits. He has quite a tidy pay each year on that part.

One of the MacKinnon wagon quarries west of the city has been bringing in three-quarters of a load, or about 12,000, of stone which is considered a pretty good load.

Washington's birthday was fully observed in this city last Monday by the postoffice and the local banks. Otherwise no one would ever have known that the father of his country ever had a birthday.

C. O. Basal, one of the old favorites of the town of Rushol, visited the Tribune office on Saturday. Mr. Basal has lived out in that section for the past thirty-two years, and consequently seen a good change there during this time.

Buills up waste disease, is a depressing, insupportable, and strengthening sleep, giving rest and strength and health. That's Hollister's Rocky Mountain Tea. Get it. C. C. Co., Tel. or Tablets. John Hill Co.

The annual meeting of the County Teachers' Association was held at Marshfield on Friday and Saturday, March 5 and 6. An attractive program has been prepared for the two days and it is expected that not only the teachers from the county will be in attendance, but also those from surrounding counties.

John Larsen of the town of Wausau was a pleasant caller at the Tribune office on Thursday. Mr. Larsen reports that his 16 year old daughter has been quite sick with rheumatism for the past couple of weeks, but is somewhat better at that time. He had been under the care of Dr. Dean of Rushol.

Miss Carrie "Thomas of the city" visiting relatives and friends for a few weeks.

Peter Holland spent a few days the past week at Tomahawk, Merrill and Wausau on business.

—Remember the Saturday night dance at Wausau from 7:30 to 4:30 p. m. Bring the children and get a good treat. Matinee every Saturday afternoon.

Mrs. Baulah Birou returned Tuesday from Chicago, where she has been for some time past recovering from an operation which has rendered, there. At the present time she is feeling fairly well again.

Morning service in the Congregational church next Sunday at 10:30. The pastor will preach the Subject "Our Common Humanity." Billings school at 12. Young people's meeting at 6:30. Evening service in the opera house.

B. F. Walters, editor of the Morning Times, was in the city over Sunday visiting with his family. He reports a very pleasant beginning of the future. He expects to move his family there in the near future.

—I am in the mayoralty race stay until the finish. When people say I have cold feet they are clear. I shall run if I only have a vote and that my own. I am to stay, winner lose. If you want me vote for me.

Yours Respectfully,  
F. B. Norton, the Stove Man

**Marshfield News:**—Adam Hill enlisted with Company A and served with them during the Porto Rico Campaign has been granted a bonus of \$17 per month for 30 months, amounting in all to \$510. Mr. Hill received a check for the above amount last week. It is a very nice nest egg to get so soon as tax paying time.

—Barnsdale's best of all moving picture shows, will be at the Grand Opera House Wednesday and Thursday evenings, March 4th and 5th. On Wednesday evening the Fast play will be given complete and on Thursday evening a variety of subjects will be given never seen in this city before. — you have never seen Barnsdale's pictures, do not fail to see them this time. Popular price will prevail.

According to the recent bulletin issued by the Wisconsin committee on the International Congress on Tuberculosis, 3,500 people die annually in the state of Wisconsin of the pulmonary sufferer from the disease. The bulletin also commends the veracity of Wisconsin for its advocacy of the spread of tuberculosis, and the state institution first to common educational institutions with practical knowledge.

—Among the interesting stories that will be seen at Barnsdale's are the following:

Grand Naval parade, Battle Submarines, Beauty Spots of Alps, Royal Spanish Wedding, Shots from Germany, A Trip thru London, The Ogre's Cove, Looking India and many others.

Remember the date, March 4th and 5th. Popular prices 10, 20 and 30.

—One way Coliseum second fares via Chicago. Milwaukee to Paul Ry and joint lines to Arlington, Canada, Colorado, El Paso, Mexico, Mon. and Nevada, Oregon, Washington and Wyoming. Tickets on March 1st to April 30th, 1908.

An alarm of fire brought the department shortly before 11 o'clock on Friday. The fire was on the roof of the E. A. Upham property on the corner of Oak and 8th. It was now occupied by A. L. Putnam, neighbors in that vicinity got and extinguished the flames and the department arrived with any great damage resulted. The evidently caught from sparks the chimney.

The Oshkosh Northwesters are following to see of Barnsdale's show—A crowd that packed Grand to the doors witnessed a program of moving pictures presented by Barnsdale's "New Year's." All present will agree it was the best, if not the best, program the kind ever presented at the home. Mrs. Barnsdale is to be congratulated of the success of his prize. Many very fine scenes shown.

The new bathery at Wild Waushara county, is taking although no buildings have been erected there. The commission finds that the site of this new idea is ideal for the proposed resort, to which purpose it is exclusively devoted. The commission has acquired of the river, including a considerable one, fed by a large damper of fine forming a natural series of ponds. The ponds require little work for preparation for their purposes, merely needing a cut and the building of bulkheads. Besides the series of ponds, there are large flowing springs naturally at the head of the stream, affording opportunity building more ponds when they may require. The stream is low ground, swampy by the many springs, but the are high and well wooded. The erection of buildings will be in the spring.

So good a republican paper Whitewater Leader, says farmer has received. Then he compared the two. Then he his surroundings with a far. Then, then he broke with "By gum, those ready reformers, who were reduce our taxes have done the fashion of that old hotel keeping in Michikan is disgusting too deep a hole pockets of us dear people."

Why get up in the morning worry others and worry you? Here's a secret between you and I. Better take a little of the Johnson's Hill Co.

The many friends of the Wisconsin Children's Home Society in the county will be glad to hear through the Tribunes of the prosperity and enlargement of the work of this "Beneficial Charity." In the fifteen years since this work of child rescue was organized in our state, nearly a thousand of our own boys and girls of the homeless, neglected and dependent class have been provided for. Of this number thirteen were from our own county, and eight were from our city. Twenty-four have been placed in carefully selected family homes in Wood county, in the year 1906, 203 children were placed in good family homes in other states.

An important part of the work of child rescue is the visitation of children, after they have been given out for adoption. So far as possible this is done once a year. The supervision of all children, under their twenty-one years old, invested in the Society by the law of our state.

A advanced step was taken February 1, when the Wisconsin Children's Home Society and the American Home-Finding Association of Portage were united. By this solidation, the Wisconsin Society took over the character of the Portage society and assumed supervision of the children placed in families by that society. On the 7th last May the Wisconsin Home-Finding Association went out of existence and the Wisconsin Children's Home Society is now doing the voluntary work done by the two societies.

This important work is dependent upon the voluntary contribution of those who believe in saving children and helping them to become citizens. Those who give for support of this great work are generous and co-workers with those who give their full time and strenuous effort to the uplifting of neglected children and in this way they help to make a better commonwealth.

Our friends need to be careful there are others claiming to represent child saving work, often assuming the name of this society, and sometimes a similar name, and thus deceive those who for years have known this work and contributed for its support. If you are approached by any one claiming to be an agent of the Wisconsin Children's Home Society and are in doubt, call on Milwaukee office by telephone Grand 2838—and inquire about it and we will pay the charges.

The officers of this society are: Bro. H. Cheever of the Milwaukee Normal is President. Mr. W. C. Choney, Asst. Cashier of the Wisconsin National Bank, is Treasurer. Hon. E. T. Fairchild of Milwaukee is Secretary and Counsel. Ross P. Dysart, who organized this society in Wisconsin, is Superintendent. Rev. L. G. Carr of Fond du Lac is Assistant Superintendent. All applications for children and all contributions for the support of this should be sent directly to the Milwaukee Superintendent.

L. G. Carr

### WEIGHT OF PLANETS

It is the Mass of the Body That Weighs With the Astronomer.

If a ham weighing thirty pounds were taken up to the moon and od there, the "pull"—the attractive force of the moon upon the ham would amount to only five pounds. There would be almost no weight left in the ham for the pull of Mars or of the sun. A man who weighs thirty pounds at New York would weigh some 800 pounds on the surface; hence the astronomer does speak of the weight of a planet because that would depend upon the place where it would be weighed. Spunks of the mass of the planets means how much planet it is, no matter where it might be weighed.

At the same time we might, any inexactness, agree that the weight of a heavenly body should be measured in New York, because it is larger than the earth itself. We are to imagine is this: Suppose the planet could be divided into ten million million equal parts and each of these parts brought to New York weighed. We could easily weigh it in pounds or tons. To find this by a million million and we shall have a weight of it. This would be equivalent to what astronomers might take as the weight of the planet.—Current Literature

### A Use For His Hat.

A funny incident of a drawing room meeting was recently noticed. A gentleman, with an umbrella hat, entered, and seeing the ball, placed his hat on the ground before the door, with a long grave air, and entered, with a long umbrella, and, peering at the usual receptacle, saw gloom the hat resting on the floor. He was probably poor, mistook it for one of the new holders; and in so doing he saved himself from being kicked. This was an amusing thing which followed, and in the time the solemn looking man stanchly holding a dozen umbrellas. At the end of the meeting the hat was an inch in depth. Tit-Bits.

### Candidate for City Treasurer.

I have been asked and urged by my friends to become a candidate for treasurer. After considering the matter carefully I have decided to come a candidate and by the method of announcing myself, I am pleased to perform the duty that office to the best of my ability. Yours respectfully, Gustav R. Sauer

### Announcement.

I hereby announce myself a candidate for the office of Mayor of the city of Green Bay, Wisconsin, during spring election. Sam. J. Bunker

### Special Announcement.

We are pleased to announce Folgy's Honey and Tar for colds and lung troubles is made by the National Pure Food Law and is the best cough syrup for the throat and lungs, and we recommend it as a safe remedy for children and adults. Daily Drug & Grocery Co., Chicago

Flies grow in California and are very numerous during the warm days or seasons that the growers know how to produce the figs. As many of us know, the fig has no flower; it grows out of the branch of the tree, and where and everywhere, and it will grow if the fig is not fertilized, it will grow and drop off.

It so happened that the first growers in California could not grow the fruit; then a scientific grower was sent to Smyrna, Turkey, in Asia, to study the fig-growing industry. When he returned, he brought back with him some Smyrna fig trees and a colony of fig wasps. These wasps are carefully cultivated and fed during the fall and winter months in the Smyrna fig trees. In the spring of the year when the young figs on the live California fig trees are about a month old, these wasps are let on each tree, the insect immediately starts for a young fig and burr hole into it. This fertilizes it, the insect lives up its life, the young fig absorbs the wasp, and, as it were, the young fig gets ripe, and is the commoner.

Figs are very easily cured and are picked from the tree, cut then placed in a solution of water for a few days, afterwards lowered to partially dry and packed in boxes for shipment.

When the figs are picked, then placed in a solution of water for a few days, afterwards lowered to partially dry and packed in boxes for shipment.

When a fig is eaten by a wasp, the fig has been eaten by the fig wasp. The fig wasp is a very small insect, and it is not ten years old.

The fig trees do not produce a crop of figs in the country in San Joaquin Valley was astonished to see how the fig trees which had fallen on the ground, lying neglected; the figs lined the road on both sides for miles. My driver said in reply to my inquiry, "Oh, yes, the figs are too lazy to pick them, but make good fertilizers." In the orchard a little plowing thorough is, the fallen figs fruit.

Kresno, fuel for heating is not used. On wet or damp days, winter a part of a dry could suffice. Cooking is done on stoves.

On making inquiries as to the value of land in San Joaquin (Fresno County) I learned that good raisin or table grapes could be planted could be purchased for \$150.00 per acre and \$20.00 per acre can be realized: no seedling or log required, only irrigating, watering, pruning and picking, and the labor necessary. It is so that raisins are a reasonable crop, as also are figs.

As all fruits cannot be sold in the fresh ripe state, such as peaches, apricots, nectarines, apples, etc., are cut into and dried sufficiently. These fruits form a very large industry, and mention that nearly all the fruits, in order to make them in their shape, keep their color, also to make them pleasing to eat as well as appetizing, are subjected to the fumes of sulphur for time. If this were not done, dried fruit would curl up in a black. The sulphur fumes in the fruit are an excellent thing. All microbes or insects which help to preserve them, the sulphur is immediately expelled, the fruit is cooked. Nearly all the fruits are subjected to the sulphur as well as the dried fruits. In the fruit, I may state, it is not a wasp, but it is in the form of this article. I may state, it is not a wasp, but it is in the form of this article. I may state, it is not a wasp, but it is in the form of this article.

The apple called the "Golden Wonder" which can be purchased in which, comes wrapped, separately, in tissue paper, and apples used to rank first in quality of all apples grown, but the skin of the fruit grows over active in the skin, color, etc. It is grown in perfection in the neighborhood of Portland, Oregon, on the slopes of Mount Hood.

**DANGER IN DELAY**

Kidney Disease Are Too Dangerous to Rapidly People to Neglect

—The great danger of troubles is that they get a before the sufferer recognizes them. Health is gradually undermined, backache, headache, lameness, soreness, lumbago, trueness, dropsy, dizziness, Bright's disease follow in succession. Don't neglect them. Cure the kidneys with Dr. J. E. Foster's, living at St. Grand Rapids, Wis., can conscientiously say he had no trouble since he took Dr. J. E. Foster's. Previous to this I was suffering severely, lame back and sharp pains in the loins, could hardly stoop. I could get no sleep. I have been in a hospital for many years, but I have not been cured. I have been in a hospital for many years, but I have not been cured. I have been in a hospital for many years, but I have not been cured.

Remember the name and take no other.

**This May Interest**

No one is immune from trouble, so just as you may have a cold, and cure any case of bladder trouble that is not reach of medicine. Dr. J. E. Foster's, living at St. Grand Rapids, Wis., can conscientiously say he had no trouble since he took Dr. J. E. Foster's. Previous to this I was suffering severely, lame back and sharp pains in the loins, could hardly stoop. I could get no sleep. I have been in a hospital for many years, but I have not been cured. I have been in a hospital for many years, but I have not been cured. I have been in a hospital for many years, but I have not been cured.
